**Student Request for Federal Unsubsidized Stafford Loan**

If the parent of a dependent student has attempted to apply for a Federal Parent PLUS Loan and has been credit denied by the lender based on the information contained in the parent's credit file for 2009-2010, the student may qualify for additional assistance through the Federal Unsubsidized Stafford loan program.

Please keep in mind that borrowing additional funds will increase your overall indebtedness. It is essential that you budget effectively and attempt to limit your overall borrowing while in college in order to be able to manage loan repayments in the future.

**Questions regarding the credit decision should be directed to the lender.** Students may not receive the additional Federal Unsubsidized Stafford loan and a Federal Parent PLUS loan for the same academic year.

Freshmen and sophomores may request up to \$4000 and juniors and seniors may request up to \$5000 for the academic year.

Return the completed form to the Office of Student Financial Aid with documentation of your Federal Parent PLUS loan denial.
