Danielson Scholarship for Merit

This scholarship was established in 1986 by Lloyd C. and Luella L. Danielson for a student in the College of Engineering. The goal of the Danielson Scholarship is to attract students of good moral character and great potential to UNC Charlotte’s Mechanical Engineering Department.

Eligibility Requirements:

Scholarships for Merit are administered through the Levine Scholars Program. To be considered, current high school seniors must receive a nomination from their high school counselor. Once nominated, nominees will receive access to the supplemental application via email.

1. High School Seniors
2. Merit based
3. Mechanical Engineering major
